Education Services

QlikView® for the Business User

Description

Want to learn more about what you can do with QlikView® as a business user? How you can harness more capabilities to meet your specific business requirements? This 45-minute for-fee, OnDemand course focuses on the QlikView Ajax client's advanced capabilities. It teaches you, the business user, how to modify QlikView applications, taking you from consuming to co-producing QlikView documents, and how to use QlikView's social and collaborative features to engage with other users.

Course Prerequisites

None

Learning Objectives

By the end of this course, you will be able to:

- Make a query in QlikView
- Navigate a QlikView document
- Create, name, and move a sheet
- Use the repository
- Copy and link objects from repository to sheets
- Place objects on a sheet
- Change an existing chart in an application
- Create and share bookmarks with other users
- Create in-context notes and comments on objects
- Set up and take part in a collaborative session
- Use the expressions editor

Course Outline

- Overview of the basic structure of a QlikView document
- How to use the repository when modifying a document
- Overview of sharing and collaboration options

Audience

QlikView Business Users

Class Type

OnDemand/eLearning
