## How Analytics Improves Successful Community Re-Entry & Reduces Recidivism

Is your staff spending countless hours manually combining input from legacy systems? Does it take weeks, or even months, to prepare a consolidated, static report? Is data collation and data sharing manual, based on paper and spreadsheets? Are data driven statistics readily available to support trend analysis and legislature development, monitor officer caseload and track offender movement?

If you're like many criminal justice organizations, this story is all too familiar. You live in a logistics nightmare, where manual data collection from multiple sources—arrests, booking, intake, sentencing, court records, warrants, length of stay, releases, etc.—represents the bulk of the effort. And not only is this data aggregation time consuming, but also it leads to multiple versions of the truth and stifles your ability to analyze—and use—the data.

Imagine if instead, in just a few clicks, you were able to analyze multiple years of data to determine what case factors contribute to successful re-entry into the community? What if you could use that knowledge to tailor prison programs, education, counseling, job training and housing assistance?

With Qlik and Business & Decision, you have the knowledge you need to offer offenders a second chance and reduce recidivism.

### Qlik unlocks the power of information

#### Find your “aha” moment

Uncover hidden insights or anomalies by viewing all your data. You'll be able to see and explore not only what data is associated to your selected query, but also what's unrelated, which can provide unexpected insights.

#### Search data like you do the web

Searching the web is easy. Why should your data be any different? Find what you're looking for quickly, so you can move on to the next question.

#### Be empowered, everywhere

Don't wait to get to the office. Get answers to your questions anywhere, on any device, with an intuitive interface designed for mobility.

#### Share your story

Save time and keep your presentations on track. Create and publish findings in one place, so you can shift seamlessly from discovery mode to presentation mode and back.

#### Get answers now

Be up and running in a matter of days, not months. 44% of Qlik customers are live within a month; 77% are live in fewer than 3 months.

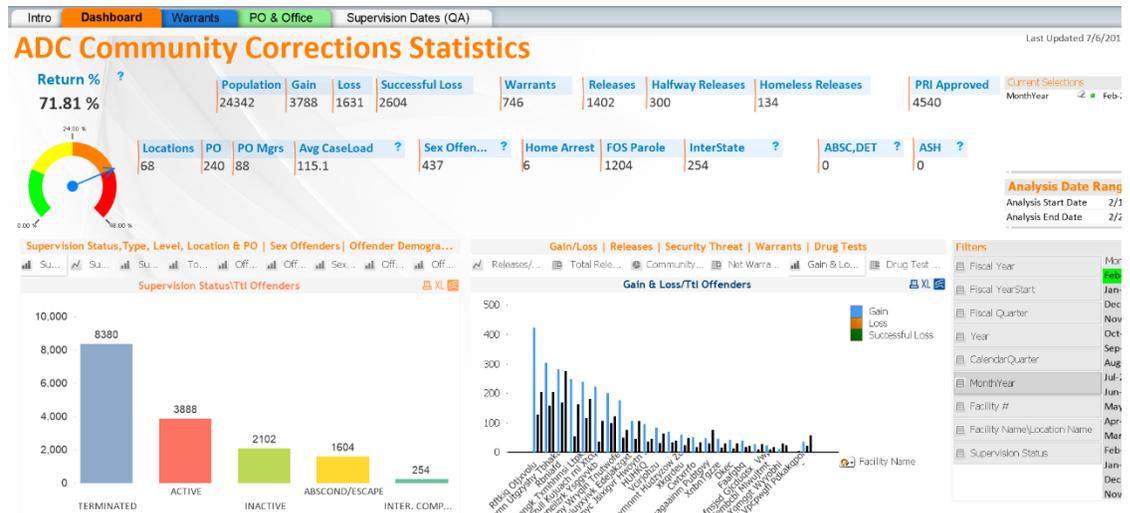

#### Minimize purchasing headaches

Software buying should be easy (and fun!). We work with you throughout the procurement process, offering flexible and scalable license models to deliver outstanding performance and low TCO to user communities consisting of 1 to 50,000+ people.

## Offender Lifecycle Management

Using the Justice Decision Dashboard, Corrections Departments can get an accurate, up-to-date, holistic view of the offender throughout their lifecycle. Combine internal data with external sources, such as the Integrated Automated Fingerprint Identification System and the National Incident-Based Reporting System, in a single interface.

The ability to analyze this information from any angle (aggregated at the total population level, down to the individual) and across any time period, enables you to uncover trends that otherwise would have remained hidden.

## Data-driven Offender Pathways

Corrections departments that use the Justice Decision Dashboard can connect with offender management systems like Mi-Case, to develop more appropriate correctional programming and case plans. Because they have a complete picture of the offender, they're able to shape an offender's treatment plan around factors that have been proven to yield better outcomes. Over time, these institutions are able to decrease costs while improving offenders' futures.

## About Qlik

Qlik is a leader in data discovery, delivering intuitive solutions for self-service data visualization and guided analytics. Qlik empowers the organization with a flexible analytics tool that not only answers queries, but also helps uncover additional questions to ask of the data. Qlik's products deploy rapidly and customers realize rapid time to value, often in less than 45 days. Contact us at [UncleSam@qlik.com](mailto:UncleSam@qlik.com) to schedule a live demonstration, or visit us at [www.qlik.com](http://www.qlik.com).

## About Business & Decisions

Business & Decision is a global management, strategy consulting and systems integration group solving business problems through Digital Transformation. As a leader in Digital Customer Experience and Data & Analytics, we leverage a unique combination of technical, functional and industry specialization, as well as partnerships with key software vendors, to deliver maximum-value projects and help out clients break through barriers to innovation and business transformation. Contact us at [dean.allen@businessanddecision.com](mailto:dean.allen@businessanddecision.com), or visit us at [www.businessdecision.us](http://www.businessdecision.us).
